2nd INTERNATIONAL WORKSHOP ON MAGNETIC MATERIALS AND NANOMATERIALS

October 1st - 4th, 2018

MMN'2018

01-04 october 2018

Faculty of Science

Presentation

This second edition of MMN'2018 follows on from the great success of the first one (MMN'2012), held in September 2012 within the Faculty of Science of the University M'Hamed Bougara of Boumerdès, Algeria. Indeed, the first edition brought together a large number of internationally renowned scientists from a large number of foreign countries (France, Germany, Ireland, Spain, Ukraine, Greece), which enabled the researchers to have direct contact for sharing ideas and know-how in the field of magnetic Materials and nanomaterials.

The coming edition will bring even more renowned scientists from more countries. It is going to be a great opportunity for the scientists from all over the world for sharing the latest developments in the field.

Submitted papers will be published, after a standard reviewing, in the international journal Hyperfine interactions (Published by Springer Nature)

<http://www.editorialmanager.com/hype>

The details of submission are included in the web site of MMN'2018 (<http://mmn2018.univ-boumerdes.dz>).

The workshop will focus on the topics:

Topic 01: Elaboration of magnetic thin films and nanomaterials

Topic 02: Mössbauer spectroscopy in magnetic materials

Topic 03: Properties of magnetic thin films and nanomaterials

Topic 04: Theory and modeling in magnetism

Topic 05: Magnetism for engineering and environment.

Invited speakers

Prof. Rudolf Schaefer	Germany
Prof. Samir Lounis	Germany
Prof. Salim Mourad Chérif	France
Prof. Maria Benidle	Portugal
Prof. Pedro Gorria	Spain
Prof. Nouredine Fenineche	France
